Summer Internship Program

Healthcare remains one of the fastest growing industries in the nation. As one of the largest employers in DuPage and Kane County, we are dedicated to partnering with students who are looking to expand their knowledge of various healthcare careers. Through meaningful experiences such as the summer internship program, we continue our tradition of inspiring students to follow a path into the healthcare profession.

The Summer Internship Program offers a unique opportunity to shadow and observe a variety of specialty departments within Central DuPage Hospital and Delnor Hospital. After completing a comprehensive orientation week, the following seven weeks focus on specific specialty rotations. Each weekly rotation gives a behind-the-scenes view of the care our patients experience at Cadence Health. On your journey, you will meet the wonderful staffs, who exemplify the "Always Thinking, Always Caring" spirit. Our hope is that you will walk away with memories and friendships that will last beyond our 8 week program.
